PABLO VILLANUEVA PICAZO

Software Engineer — Full-Stack Developer

Madrid, Spain — pablovillanueva48@gmail.com — +34 684262439 — linkedin.com/in/pablovillanuevapicazo

PROFESSIONAL PROFILE

Highly technical Software Engineer, focused on solving complex problems through clean and efficient code. Experience in full-stack development, data architecture, and agile methodologies. Demonstrated ability to design scalable solutions, optimize system performance, and apply web security principles in dynamic environments.

WORK EXPERIENCE

Development Technician Apr 2025 – Jun 2025

Universidad Nebrija (Madrid)

- Full-stack development of robust solutions, optimizing user experience, stability, and system scalability (Frontend and Backend).
- Design and implementation of efficient REST APIs to integrate third-party services, ensuring security in data transfer.
- Execution of unit and integration tests (software testing) to ensure code quality and reduce failures in production.

EDUCATION AND TRAINING

BSc (Hons) Software Engineering

York St John University Equivalent average grade: 9/10 | First-Class Honours (Class I)

Higher Level Vocational Training in Cross-Platform Application Development

Instituto de Formación Profesional Nebrija

KEY PROJECTS

Final Degree Project (TFG): Bitcoin Prediction System Grade: 9.0/10 | 2026

- Development of a Bitcoin price prediction model using Machine Learning algorithms focused on technical analysis.
- Design of an Edge AI architecture for decentralized real-time data processing, optimizing resources and latency.

Secure Record Management System (SRMS) 2026

- Web application in Go using net/http, html/template, and SQLite.
- Prevention of SQL injection and XSS following the OWASP Top 10.
- Role-Based Access Control (RBAC), CSRF protection, and password hashing with bcrypt.
- IP rate limiting and account lockout after failed login attempts.

TECHNICAL SKILLS

- **Languages and Frameworks:** Go, Java, Python, JavaScript, TypeScript, Spring Boot, React, Angular, Svelte.
- **Databases and Cloud:** SQLite, JDBC, Firebase, Cloud (Deployment and computing).
- **IT Specialties:** APIs, Testing, Full-Stack Architecture, Web Security (OWASP), Machine Learning, Edge AI, Linux, Git.

LANGUAGES AND OTHER DATA

- **Languages:** English (B2 Certification - Professional fluency).
- **Other:** Technological adaptability, continuous learning, Driving License (Category B), Immediate availability.
